INDEX

This is an index to organisations and places referred to in the main text and in appendixes 1, 2 and 4. The organisations covered by the index include trade unions, business firms, and government commissions and committees. However, it does not include trade unions and friendly societies referred to in appendix 3, because the latter is itself organised as an index. Trade unions are indexed under their full title with cross references where appropriate from places and trades mentioned in their title.

In the case of trade unions a number in bold italic type is the number of entry for the union. Numbers in ordinary type are page numbers.
