TRADE UNIONS

in the New Society

by

Harold J.

LASKI

Harold J. Laski was one of the most important political philosophers of our time. The ideas expressed in his books, from *The Grammar of Politics* to his great work on the American way of life, *The American Democracy*, have had a profound influence on Socialist thinking. All his life he was a close observer of the growing power and place of organized labour. In this book he examines the changes that have occurred in the status of trade unions and the place they occupy in the present democratic world. He contrasts their function in a capitalist or socialist country with what it has become under Russian totalitarianism.

A concise book, it explores the past and the present attitudes of society towards unions, and traces the changing views of the courts in the many cases in which the growing labour movement has challenged the ancient concept that property rights transcend all others. It examines the impact that such relatively recent developments as mass production, social security, and a planned economy have had on the position of the working man, and considers the proper role of the government in disputes which may affect the basic public welfare. Most important of all, possibly, are Laski's observations on the desirability of labour activity in organized politics. His arguments are of the greatest importance for all who are concerned with the future of democracy.

'The greatest theoretician the modern Labour Party possessed. . . . Men of all political ways of thought owe him something, for whether they agree or disagree he has had a share in shaping our present society — and will certainly have a greater one in shaping our future.' Geoffrey Goodman in *The News Chronicle*.

NATIONAL BOOK LEAGUE

PRESIDENT:
John Masefield O.M.

AN independent voluntary society with no political, religious, or commercial bias, the National Book League is supported entirely by its members. Its aim is to increase the use of books and give information and guidance on reading in all branches of study and recreation.

EVERY day the *Information Bureau* of the National Book League answers scores of questions and inquiries about books submitted by its members. Lists of specially selected books on every kind of subject are provided. Titles, authors, dates, references and allusions are verified. Personal guidance is given.

ALL members of the League receive its famous *Book Lists* on special subjects, of which over two hundred have been published. A monthly news-sheet, *Books*, is sent to all members, who can also attend the *Exhibitions* organized by the League, and make use of the *Library* and other club facilities provided at the League's headquarters in London. The annual subscription is one guinea for members living within 30 miles of N.B.L. Headquarters, and 10/6 for members living outside this radius. Full particulars, including a free booklet on *Books and Readers*, may be obtained from the Secretary,

NATIONAL BOOK LEAGUE,
7 Albemarle Street,
London W.1.

THE AMERICAN DEMOCRACY

Royal 8vo 25s. net

"It is both provocative and prejudiced . . . a profound analysis of the American scene. With his usual aplomb Professor Laski tackles nearly all the main facets of American life—politics, the commercial world, the professional and labouring classes, religion, education, culture, press, films, and the radio." NEWS CHRONICLE.

"Compared with Professor Laski, Tocqueville knew comparatively little, and Bryce's immense knowledge was more restricted in extent and less informed by an organizing idea than in the knowledge revealed in *The American Democracy*. The newcomer to American studies will learn a great deal from these packed pages, the fruits of thirty years' reading, observation and reflection." D. W. BROGAN in THE SPECTATOR.

LIBERTY IN THE MODERN STATE

Cr. 8vo 3rd Edition 8s. 6d. net

A new and welcome edition of an important work that has long been unobtainable. This volume has particular relevance at the present time, when the concept of liberty, though fought for in the greatest of all wars, is in danger of being submerged in the chaos of the present world situation. This statement of principles by Professor Laski, written in pre-war days, should be read in connection with his *Reflections on the Revolution of our Time*, the main arguments of which were developed out of the war situation.

THE STATE IN THEORY AND PRACTICE

Cr. 8vo 4th Impression 8s. 6d. net

"The bravest and probably the most fundamental argument for Socialism that has yet appeared in our language. . . . It marks a phase in the breakdown of the capitalist system." H. N. BRAILSFORD in THE DAILY HERALD.
