TOPICS IN BUSINESS ORGANISATION

The books in this series seek to provide a sound background in the fundamentals, theory, principles and practice of some of the more important aspects of commercial life in Ireland. They have been principally designed for business studies courses in school and university programmes, but they should also be suitable as a reference for the general reader.

Available in the series:

State Involvement in Business

Capital

The Stock Exchange

Business Enterprise: Its Structure in Ireland

Banking and Insurance

Management, Labour and Consumer

Production and Distribution
