
STUDIES ON INDUSTRIAL RELATIONS

(Third Series)

■

Canadian National Railways -
The Pequot Mills, Salem, Mass.,
U.S.A. - A Paris Department
Store - Norwegian Nitrogen
Company - Industrial Rela-
tions in the Grand Duchy of
Luxemburg

■

This is the third series of monographs prepared and published by the International Labour Office on industrial relations in selected undertakings. The primary aim of the Office in making these studies was not to secure international comparability, but to picture the organisation of relations between heads of firms and their staffs in the diverse conditions in which such relations may develop.

The undertakings chosen for investigation were picked rather as illustrations than as patterns. The examples are therefore taken from a variety of industries and from different countries. Those studies in the present volume are :

Canadian National Railways.
The Pequot Mills, Salem, Mass., U.S.A.
A Paris Department Store ('La Samaritaine').
Norwegian Nitrogen Company.
Industry in the Grand Duchy of Luxemburg.

6s. Od.: \$2.00
