WHAT IS THE BUREAU OF CURRENT AFFAIRS?

The Bureau of Current Affairs is an independent, non-profit-making organization sponsored by the Carnegie U.K. Trust. Its object is to help to create an alert and informed public opinion and to provide for a wider public those aids to group discussion which A.B.C.A. produced during the war for the men and women in the Services — pamphlets on current affairs, visual aids, information services, and short training courses for discussion group leaders. The management of the Bureau's affairs is in the hands of a Council under the Chairmanship of W. O. Lester Smith, C.B.E., Director of Education for the City of Manchester. The Director of the Bureau is W. E. Williams, C.B.E., who created A.B.C.A. in 1941.
