15.	Knowles' analysis of strike causation: ratio illustrating relative propensity to strike on different issues	207
16.	Principal features of an industrial relations system used for comparison	209
17.	General pattern of strike propensities	210

ACKNOWLEDGEMENTS

Since the first edition of this book was published, numerous changes have taken place in the field of industrial relations. The most important of these are taken into account in this edition.

Compiling the second edition of a book requires a considerable amount of detailed work. Much of this has been undertaken by Mrs Moira Gray and Mrs Dorothy Anderson, and I am grateful for their assistance.

ANNOTATED BIBLIOGRAPHY

- Ackroyd, S., 'Economic Rationality and the Relevance of Weberian Sociology to Industrial Relations,' *British Journal of Industrial Relations*, vol.IX, no.2 (July 1974), pp.213-35. Examination of motivation, in terms of individual rationality and the way this reflects social pressures in the work situation.
- Acton Society Trust, *Size and Morale*, Acton Society Trust, London, 1953.
- Albeda, W., 'Recent Trends in Collective Bargaining in the Netherlands', *International Labour Review*, vol.103 (1971), pp.247-68. Useful review of trade unions and collective bargaining in the Netherlands. Includes discussion on Dutch incomes policy and its problems.
- Alcock, A., *History of the International Labour Organization*, Macmillan, London, 1971.
- Allen, V.L., *Militant Trade Unionism*, Merlin, London, 1966. Examination of the role of trade unionism in the post-war years centring on their reaction to inflationary conditions.
- , *The Sociology of Industrial Relations*, Longmans, London, 1971. A collection of essays on industrial relations—some re-published—including a substantial section on developing countries.
- , *Trade Union Leadership*, Longmans, London, 1957. A critical examination of the style of union leadership in Britain taking the Transport and General Workers Union and the leadership of Arthur Deakin as a case study.
- , 'Trade Unions: An Analytical Framework,' in Barrett, B., Rhodes, E., Beishon, J. (eds.), pp.60-6. Analyses the relationship between the development of trade unionism and the social structure.
- American Assembly, *Challenges to Collective Bargaining*, Prentice Hall, Englewood Cliffs, 1967. Collection of essays on collective bargaining in the USA. Includes examination of labour law, wages policy, the role of the public sector and the provision of fringe benefits.
- Anderson, P., 'The Limits and Possibilities of Trade Union Action', in Blackburn, R., Cockburn, A., (eds.) pp.263-80. Stresses the importance of 'consciousness' in trade union activity.
- , Blackburn, R., *Towards Socialism*, Collins, London, 1965.
- Ansoff, H.I. (ed.), *Business Strategy*, Penguin, Harmondsworth, 1969.
