Preface	ix
Introduction	1
Part 1 Current trends and future possibilities <i>William Brown and Keith Sisson</i>	11
Cautions and contexts	13
The private sector	19
The public sector	25
Trade unions	30
Conflict, control and co-ordination	35
Part 2 A framework for analysis and an appraisal of main developments <i>Michael Poole</i>	39
Introduction	41
A framework for analysis	41
Changes in management, in the trade unions and in legislation	56
Policy implications	84
Part 3 Industrial relations issues in the 1980s: an economic analysis <i>Jill Rubery, Roger Tarling and Frank Wilkinson</i>	95
Introduction	97
The macroeconomic context	97
The burden of adjustment in the 1980s	100
Competitiveness and flexible unit labour costs	105
Some major issues	117
Summary	135
Bibliography	139
Author index	143
Subject index	145

Tables and figures

TABLES

2.1 Major changes in the constituent unions of the Trades Union Congress	66
2.2 Changes in trade union membership in the twenty largest trade unions in Great Britain	69
2.3 Numbers and percentages of women in the twenty largest trade unions in Great Britain	72
2.4 Union members' perceptions and the categories of social action	79

FIGURE

2.1 Explanatory dimensions of industrial relations	42

Industrial Relations in the Future

Trends and possibilities in Britain over the next decade

Drawing on a wealth of research data, this book highlights probable developments in Britain's system of industrial relations into the 1990s. It also provides a basis for further and detailed analysis and debate of issues central to the nation's future.

Written by distinguished scholars in their respective fields, the three main sections give reviews from three contrasting traditions – mainstream industrial relations, industrial sociology and management, and labour economics. These accounts are highly complementary in the ways in which, in each and every case, issues of collective bargaining, managerial strategy and union response, and the behaviour of governments are all set against a broad backcloth of economic, political and social changes. The authors see the ultimate outcome as depending greatly on the policies and types of action of organised labour, managements and governments, and possibly of wider social movements as well.

The Authors

Michael Poole is Senior Lecturer (Industrial Relations) at the University of Wales Institute of Science and Technology, Cardiff. William Brown is Director of the Economic and Social Research Council's Industrial Relations Research Unit, University of Warwick. Jill Rubery is Research Officer at the Department of Applied Economics, University of Cambridge, and a Fellow of New Hall. Keith Sisson is Senior Lecturer in Industrial Relations at the School of Industrial and Business Studies, University of Warwick. Roger Tarling is Senior Research Officer at the Department of Applied Economics, University of Cambridge, and a Fellow of St Catherine's College. Frank Wilkinson is Senior Research Officer at the Department of Applied Economics, University of Cambridge, and a Fellow of Girton College.
